

Louisiana Department of Public Safety and Corrections

PUBLIC SAFETY SERVICES

OFFICE OF MOTOR VEHICLES

June 8, 2011

To Whom It May Concern:

The Department of Public Safety, Office of Motor Vehicles has launched a new website that will require the electronic submission of temporary tag (temporary license plates) information.

At this time, any entity that issues temporary tags must begin registering as a user in the Temporary Tag database. Access to the system will not be granted until registration has been successfully completed and approved by the Department. During the initial phase, it is only required that you register for use of the system. You will electronically receive notification when the approval process has been completed. After the initial phase has been completed by all entities, you will be notified to begin entering information specific to the issuance of temporary tags.

The Temporary Tag database can be accessed at www.expresslane.org. The link to the database can be found under the "Vehicle Services" header. Any questions regarding registration can be directed to the Department at (225)925-7022.
